The Art of Sourdough is a three-hour, immersive, hands-on workshop designed to take the mystery out of sourdough bread making.

Chef Charity guides participants through the full process: from feeding a starter and mixing dough to fermentation, proofing, inclusions, shaping, scoring, and baking.

This is more than a demonstration. This private workshop gives each participant more individualized, hands-on instruction, with dedicated time to work directly with their own sourdough dough, ask questions, and receive guidance tailored to their needs. The goal is to help each participant leave feeling more confident and prepared to continue baking at home.

This workshop is for anyone who wants to learn sourdough but does not know where to begin, or who has tried before and found the process confusing or intimidating.

No previous sourdough or bread-making experience is necessary. You simply need a willingness to learn.
